# Sophia Patel

## Machine Learning & AI Research Engineer

sophia.patel@example.com | +1 (555) 456-7890 | Seattle, WA

## PROFESSIONAL SUMMARY

AI Engineer and Researcher with 5 years of industry experience deploying production machine learning and deep learning solutions. Expert in natural language processing (NLP), transformer architectures, and scalable model deployment using Python, PyTorch, and TensorFlow.

## CORE TECHNICAL SKILLS

Python ? Machine Learning ? Deep Learning ? TensorFlow ? PyTorch ? NLP ? Scikit-Learn ? Hugging Face ? MLOps ? Computer Vision

## PROFESSIONAL EXPERIENCE

### Senior Machine Learning Engineer · Cognitive AI Labs 2022 - Present

- ? Built state-of-the-art NLP pipelines for semantic text classification and entity extraction using Python.
- ? Productionized deep learning inference endpoints serving real-time predictions with sub-50ms latency.
- ? Applied modern MLOps practices, automated experiment tracking, and model validation.

### Data & ML Engineer · Vanguard Analytics 2019 - 2022

- ? Created predictive machine learning models in Python for customer lifetime value estimation.
- ? Implemented custom neural network architectures in TensorFlow for sentiment analysis and NLP tasks.
- ? Collaborated with data engineering teams to build automated training data pipelines.

## EDUCATION & CREDENTIALS

M.S. in Artificial Intelligence - University of Washington (2019)
